

Sinclair Broadcasting's attempt to influence the election in Bush's favor by forcing local station to broadcast the anti Kerry propaganda is against the democratic value, which our men and women in uniform are fighting for. Use of public airwaves for such one sided propaganda simply undermines the very democracy we claim to be proud of and trying to spraid all over the world. FCC's inaction in this matter will further prove that FCC and Michael Powell are cozying up to the right wing media ownership, and they have no interest in being an unbiased referee.
